## Iridium GO!

## HOW TO USE YOUR SATELLITE HOTSPOT

### QUICK GUIDE

Your Satellite Phone Number

---

---

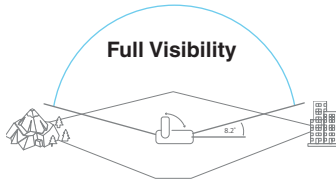

**Thank you for choosing  
SatellitePhoneStore!**

## ▶ TURNING DEVICE ON

Iridium GO! requires that the swivel antenna is raised to the upright position during operation.

## ▶ LOOKING FOR SIGNAL

For optimal performance, the antenna must be able to “see” the entire sky from approximately 8 degrees above the horizon.

Once raised, Iridium GO! will automatically complete the power up sequence in approximately one minute and will registration with the Iridium network.

## ▶ SET UP YOUR SMARTPHONE

Iridium-optimized applications must be downloaded to your smartphone to access the available Iridium GO! services.

- **Iridium GO! application** - Application provides Voice calling, SMS, Tracking, SOS and Twitter posting.
- **Iridium Mail & Web application** - Application provides compressed and optimized email; social media support; photo transfer capabilities via email, Facebook, and Twitter.

You can download the apps from the Apple Store and Google Play store

- **3rd Party applications** - Applications developed by other companies and optimized for use with Iridium GO! will be featured at [www.iridium.com](http://www.iridium.com).

## ▶ CONNECTING TO YOUR IRIDIUM GO!

1. Go to **Wi-Fi settings**. Select the Iridium GO! Wi-Fi network (ex. “Iridium-6088CC”) and connect.
2. Once your device has connected, you can begin using the Iridium GO! application.

## ▶ APPLICATION CONFIGURATION

1. To login to the Iridium GO! application, press the **Login button** located at the bottom of the application home screen to enter your username and password.
2. The Iridium GO! application provides a default **user name of “guest” with a password of “guest”** (both the user name and password are case sensitive).

## CONFIGURING SOS

Using the **Settings** menu in the Iridium GO! application, you may configure SOS while paired to the Iridium GO! device

## ▶ PLACING A CALL

1. Make sure the Iridium GO! registered with the Iridium network. Launch the Iridium GO! application, login and press the Call icon.
2. To make a call, enter **00 or + > Country Code > Phone Number**, or use the Country flag dropdown menu.

## ▶ TEXT MESSAGES

1. To send a text message, press the **Messages** icon from the main screen.
2. Enter recipient.
3. Type your message then press the **Send** icon.

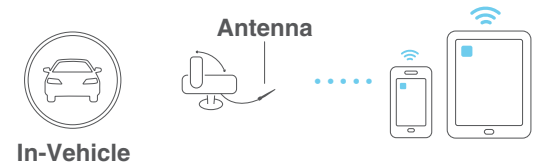

## ▶ HAVE A TWITTER ACCOUNT?

To link your Twitter account with your Iridium GO! device, **login to Twitter.com, and update your Account settings** with the Iridium phone number.

## ▶ IN-VEHICLE

Iridium GO! can be used during car travel by using the External Antenna Adapter cable (*sold separately*), and an Iridium certified external antenna (*sold separately*). This allows wireless connection to your smartphone, in and around your vehicle.

The Iridium GO! device may be secured by using a standard camera mounting bracket.

## ▶ IN-BUILDING

Iridium GO! can be mounted indoors, with a connection to an external Iridium antenna (placed outdoors with complete view of the sky). Use the External Antenna Adapter cable (*sold separately*) and the Wall Mount Bracket Kit (*sold separately*).

This allows wireless connection to your smartphone and Wi-Fi enabled computers in and around an office or remote home while using applications optimized for Iridium.
